

**CHRI Internal Research Fund
2002 Awards**

Investigator	Program	Department	Title	Amount Funded
Karen Campbell	Child Health & Well-Being	Epidemiology & Biostatistics	The effects of social environment on children's health	\$7,500.00
Lina Dagnino	Developmental Biology	Physiology & Pharmacology	Alterations in epidermal morphogenesis by inhibition of E2F activity	\$7,500.00
Fabian Gorodzinsky	Children's Optimal Therapeutics	Paediatrics	Treatment of primary nocturnal enuresis: a randomized control trial of hypnotherapy versus an alarm system	\$4,200.00
David Knoppert	Children's Optimal Therapeutics	Paediatrics	The effect of metoclopramide on gastrointestinal mobility in very low birth weight newborns: a randomized, double-blind, placebo-controlled trial	\$2,500.00
Greg Kelly	Developmental Biology	Biology	MIR and kidney tubulogenesis	\$7,500.00
Doreen Matsui	Children's Optimal Therapeutics	Paediatrics	Health-related quality of life among children with adverse drug reactions	\$3,784.00
Michael Rieder	Children's Optimal Therapeutics	Paediatrics	Alteration of cellular homeostasis by HIV tat-implications for the pathogenesis of adverse drug reactions for people living with HIV infection	\$6,500.00
David Wolfe	Child Health & Well-Being	Education	Understanding child neglect: An investigation of neglectful caregivers' attachment representation	\$7,500.00
Vicky Wolfe	Child Health & Well-Being	Psychiatry	The effects of childhood maltreatment and trauma on emotion socialization within the mother-child relationship	\$7,500.00
Kaiping Yang	Fetal & Newborn	Obstetrics & Gynaecology	Regulation of human placental 11 β	\$4,032.00

	Health		hydroxysteroid dehydrogenase type 2 by PPAR β
